Search For Articles in EBSCO
From the library’s homepage, use the Articles search box to start searching for articles in EBSCO.

Place your first keyword here and hit enter or click the magnifying glass icon.
If you are off campus, you will need to login using your Aurora University username and password. This is the same username and password you use to login to your student email, Moodle, and Webadvisor.
To narrow results further, add additional keywords at the top, or use the limiters on the left side.
