Request Articles in Tipasa
This tutorial will first look at EBSCO and then ProQuest.

From the library homepage, put the subject you are looking for in “Articles” search bar and hit enter.
If the article you are looking for is not available, a copy can be ordered by clicking the “Find It” button.
If you find an article you want a copy of, click the title of it.
Click on the “Details” tab, then click the “SFX” button. This and the EBSCO “Find It” Button go to the same page.
After clicking the “Find It” button on EBSCO or the “SFX” button on ProQuest, a new tab will open. If the title is unavailable and you would like to request the article through inter-library loan, click the first link.
The article request form will be filled out for you. Click “Submit Request” at the bottom of the page.
What Happens After You Submit Your Request?

• After clicking “Submit Request” you will see the list of your outstanding requests.
• Your article will be delivered to your AU Email.
• On average, this process takes a week.
